

2013 Distinguished Graduate

Jackelinne Su
Architecture

"All our dreams can come true, if we have the courage to pursue them."

-Walt Disney

Biography

Jackelinne Su is the distinguished graduate in the Architecture program. She will be graduating on May 11, 2013. She is really looking forward to this probably more than anyone because it's a huge deal to her and her family. She knows this Associate's degree is another step closer to finishing what she once started. All the all-nighters, all this sacrificed time, all those xacto knife cuts are finally going to pay off. It's so amazing to begin to see a little light at the end of the tunnel.

In early January, Jackelinne was accepted to the School of Architecture and Urban Planning at University of Wisconsin Milwaukee. She will be finishing her Bachelor's degree of Architecture there since it's so close to the city she loves, Chicago. For Graduate school, she would love to attend Auburn or UCLA. After she is done with her studies, she wants to begin living her dream as an architect in Florida. Every time she travels there she falls more in love with the place. She will continue working incredibly hard to make her dream come true.
