Information Security Technicians are crucial to maintaining security in today’s computer driven businesses. Their primary job is to understand, prevent and correct various security threats to computer and communication networks in businesses and homes.

Where do Information Security Technicians work?

- Various office settings
- Schools, hospitals or other public service facilities
- Commercial network-security companies

Average Starting Wage: $14.42 - $20.23/hr

What is I-BEST?

I-BEST students benefit from technical training that is combined with reading, writing, math or language skills needed for college training. Students in I-BEST programs enter college-level training without needing to first complete developmental education.
