

"The Project Lead The Way team, consisting of our internal members and a strong national network of university affiliates, state leaders, and corporate partners, tells me there is no stronger program in the United States than Toyota's model for training its future workforce"
-Dr. Vince Bertram
National President, Project Lead the Way

HIGHLIGHTS OF THE PROGRAM

The Toyota Advanced Manufacturing Technician Program (AMT) includes a two-year Associate Degree that combines *cutting-edge curriculum*, and a *paid working experience* along with learning *highly sought-after business principles* and the *best practices of a world class manufacturer*.

Graduates of the program may:

Continue on to a great job with the company (if company elects to retain the graduate).

Continue on to a Bachelors Degree at another great school in such fields as engineering, technology, or business.

Seek employment with another high-tech manufacturer.

(According to the National Association of Manufacturers "Skilled Technician" is the No. 1 unfilled job opening in the U.S. today.)

Over two years graduates of the program can earn **\$30,000** to help cover education expenses. There are also potential grants and financial aid.

TOYOTA

Advanced Manufacturing Technician Program

*"The thing about the program that makes a difference to me is the hands-on experience – being able to learn something in class and then being able to go to work the next day and have hands-on practice with what you learned."
-Christina Partin*

TOYOTA

Advanced Manufacturing Technician Program

WHY SHOULD I APPLY?

The Advanced Manufacturing Technician Program (AMT) offers a unique opportunity to earn a wage while attending college and gain priceless work experience with a global manufacturing leader. This allows you to enter the job market with less education debt, more real-world work experience, and an advantage over graduates from other programs in getting the job that you want.

WHO GETS SELECTED?

Along with Alamo College's Application for Admission, Toyota personnel review and select potential students on the following criteria:

Academic success as measured through grades and class rank.

Math capability as measured through ACT or SAT scores

Participation in one or more of the following STEM high school programs;
Alamo Academies, First Robotics, PREP or Project Lead the Way (PLTW)

Commitment to remaining absolutely illegal drug free.

HOW DOES THE AMT PROGRAM WORK?

The Toyota AMT Program blends classroom instruction with on-site experience at the Alamo Colleges St. Philip's Community College. Classes will be offered at the Alamo Colleges nationally unique manufacturing campus in subjects including electricity, fluid power, mechanics, fabrication, and robotics. Upon completion of the program, graduates will hold an Associate Degree. As a student of the AMT Program you will:

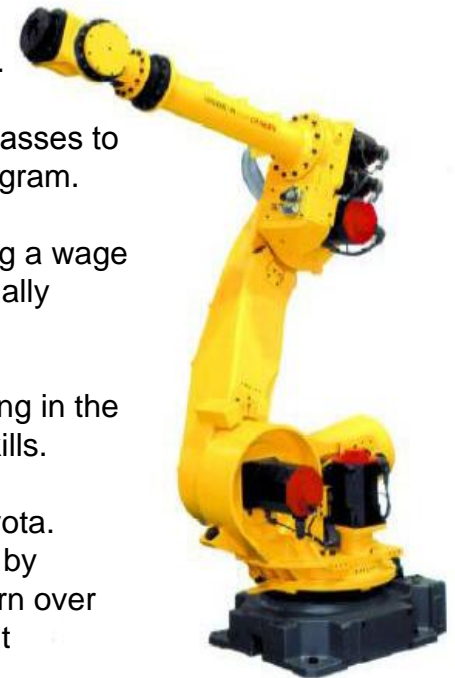

Attend two full days of classroom instruction per week.

Maintain a "C" or higher in all classes to remain eligible for the AMT Program.

Work three days a week earning a wage starting at **\$12** per hour, potentially increasing up to **\$16** per hour.

Earn raises in pay by progressing in the program and employing new skills.

Possibly start a career with Toyota. Graduates selected to be hired by Toyota have the potential to earn over **\$50,000** per year, plus excellent benefits.
