Chapter 1 Overview

Compilation of “Good Practice in Program Review"

- **Addresses 2 Questions**
  1. What does “good” outcome based assessment look like from an institution perspective?
  2. Who’s doing replicable work?

**Intended Audience**

- Faculty/ Administrators responsible for program review
- Highlights 40+ institutions with good practices
Right from the Start

Why Do Assessment?

1. Respond to growing demand of institutional accountability
2. Provides information for improvement of quality, and the effectiveness of each program and functional unit.
3. Provides a framework for each unit to review outcomes in relation to mission.

• 4. Can assist with determining to what extent the department is successful in serving a wide-range of students;
• 5. Assess how well the department is contributing to general education or institutional goals/objectives
6. Identify indicators of learning effectiveness at the course and program level

7. Framework for critical inquiry about what works well and what needs improvement
