Specialized Tutorial Assistance

CIMA-LSAMP Supplement Instructor (SI) sessions are a specialized tutoring program that use peer-led study sessions. Those regularly scheduled review sessions allow students to compare notes, discuss readings, and develop organizational tools. Students also prepare for tests by learning how to integrate course content, study skills, all while building valuable peer relationships.

St. Philip's College

Spring 2015 Chemistry 1411

Fridays 6pm-9pm
Science Building Room 201
