ADDENDUM V
Purchase of Commercial Insurance Lines of Coverage
CSP No. 19A-016

I. The following is being provided in response to questions received:

A. Question: Our underwriter for the property advised they need the following after reviewing the SOV provided yesterday:

Improvements that should be made to the SOV:

- Construction – some of the codes they are using are not common Construction Class Codes:
 - District – Only provide type o construction for 3 buildings
 - NLC – No Type of Construction provide for any buildings
 - NVC – Construction Type shown is not per codes used by insurance companies
 - PAC – Not familiar with construction type S
 - SAC & FRA – Not familiar with type – NC-B
 - Leased Property – No type of construction shown
- Suggest providing a Construction Description and ISO Class Codes. Some locations are missing Construction information entirely.
- The key location at the San Antonio College is the Nursing & Allied Health location and we are missing construction, sprinkler, roof update, and number of stories. Suggest the College focus on completing COPE information for the key locations. Anticipate AIG did some engineering on key locations. Are these reports available?
- Roof Update Information: The RFP references a Roof List that will be provided through an addendum. Has this been received?
- Missing Sprinkler Information at several locations.

Response: Additional information regarding this request is unavailable, and will not be provided.

II. The deadline to submit a proposal for this CSP has been extended to June 27, 2019.
