Accounting Concepts and Principles:

The Entity Concept - An organization is a separate entity from the owner(s) of the organization.

The Reliability (Objectivity) Principle - Accounting records and statements should be based on the most reliable data available so that they will be as accurate and useful as possible.

The Cost Principle - Acquired assets and services should be recorded at their actual cost not at what they are believed to be worth.

The Going-Concern Concept - The assumption that the business will continue operating for the foreseeable future.

The Stable-Monetary Unit Concept - Accounting transaction are recorded in the monetary unit used in the country where the business is located.
Accounting Notes
Concepts, Accounting Equation, Financial Statements

The Accounting Equation:

\[
\text{Assets} = \text{Liabilities} + \text{Owner's Equity}
\]

Anything that belongs to or is owed to the business

A debt owed by the business to its creditors

The owners claim to the assets of the business.
The assets that are left over after the liabilities are paid

Difference between Accounts Receivable and Notes Receivable:

Accounts Receivable - The promise by a customer to pay the business for a service or product provided

Note Receivable - The WRITTEN promise for a future collection of cash within a specified period. Usually includes the requirement for interest to be paid.

Difference between Accounts Payable and Notes Payable:

Accounts Payable - The amount owed by the business to a creditor that is backed by the general reputation and credit history of the business.

Notes Payable - A WRITTEN promise by the business for a future payment to a creditor within a specified period. Usually includes the requirement for interest to be paid.

Financial Statements:

Income Statement - a summary of a company’s revenues and expenses for a specific period of time

Revenue - Amounts earned by delivering goods or services to customers.

Expense - The using up of assets or the accrual of liabilities in the course of delivering goods or services to the customers.
