

2019 DISTINGUISHED GRADUATE

Jeffrey Missouri Jr

Business Management

Remain humble, and let the man above take care of the rest.

- Jeffrey Missouri Jr

Jeffrey Missouri Jr was born in San Diego, but was raised in Merced, California. He attended Paloma Valley High School in Menifee, California, which was not an easy transition and he knew that he had to adapt right away. He understood how important academics were at a young age. While there he participated in basketball, football, link crew and NJROTC. Jeffrey was an honor roll student.

After graduating in 2015, he did not know which direction to go. People told him that he was not smart enough to go to college, so he got a job. Jeffrey learned to silence the noise and focus on his future. One day he sat down with his father and promised his dad that he would continue his education. A couple months later his dad passed away. He remembered the conversation they had and he decided to go back to school in June 2016. Jeffrey's journey at San Antonio College has come to an end and has received his associates degree in business management. Jeffrey is excited to keep pushing himself, and continuing to make his father proud.
