READY, SET, COLLEGE!

What can you do to get your child college ready?

-  Encourage reading and writing at the earliest age possible.
-  Set aside time each night for reading. Have your child read to you and you read to them.
-  When you are out running errands, talk about the words you see and ask your child to find a new word.
-  Get connected with your child's school. Make time to attend school events and meet with your child's teacher.
-  Ask your child to think about skills and abilities that he/she would like to have and discuss how to develop them.
-  It is never too early to start saving for college or looking into ways to pay for college. Visit StudentAid.gov for more information.
