Building Programs for You
Empowering Our Diverse Communities for Success

International Training and Development
Partnering with The Training and Development Team

The Alamo Colleges District offers a comprehensive curriculum that includes academic and workforce development programs with highly qualified faculty, staff, and administrators. We have a combined inventory of over 300 international workforce education and technical training programs including several award-winning certificate and licensure programs that prepare students for employment.

We offer state-of-the-art workforce education training in several sectors including manufacturing, health care, information technology, business leadership, and more.

We would like to partner with you to provide Customizable Training to Stay Ahead of the Competition.

“The experience I had at the Alamo Colleges District was incredible, from the first to the last day. It exceeded my expectations.”

Carlos Orlando de la Huerta Gaytán  
Student of the Aeronautical Electronic Systems Engineering Program  
Universidad Aeronáutica en Querétaro (UNAQ)
Technical and Educational Training

We deliver dynamic and sustainable vocational and technical training infrastructure designed to equip citizens of all ages with the skills and knowledge to become highly competent and productive members of the workforce.

Courses may include both an English and a Technical Program (half of the course will be in English, and the other half will be in technical training). Along with all of the sectors, English as a Second Language is available and is one of the most requested courses.

Course Delivery Formats

Programs from the sectors are designed and delivered through a variety of methods that are customized to training and educational needs of the student:

- Hosted programs at the Alamo Colleges District in San Antonio, Texas, USA
- Hybrid or fully online programs
- In-Country training provided by the Alamo Colleges District faculty on-site

Faculty for Customized Training and Development

The Alamo Colleges District has access to an extensive pool of subject matter experts, faculty, staff, administrators, and trustees within its approximately 6,600 employees. Our customizable training provides faculty that are highly qualified with masters and doctoral degrees, real-world experience, field-oriented research, bilingual readiness, and the dedication to globalization and learning-centered education.

"(Translated from Spanish) As health professionals, we are pleased to have had the opportunity to travel and become certified in the areas of Advanced Cardiovascular Life Support (ACLS) and Advanced Pediatric Life Support (PALS). It is now very important that we pass on this knowledge to our students through this new vision of learning and practice which will help their professional development and, thanks to this, they can be new providers of quality health services."

Dra. Brenda Villegas Carbajal
Dra. Liliana Anel Argumedo Reyes
Licenciado en Enfermería
Mauro Alberto Aguilar Rentería
Maestra en Ciencias Biomédicas
Norma Fernanda Jiménez González
Faculty at Universidad Tecnológica de Ciudad Juárez
Join Our Global Community

International Programs has a long history with our Global Partners. We provide customizable training in over 30 Countries and have relationships with more than 20 countries.
Dear Colleague,

The Office of International Programs has a successful history of creating and nurturing partnerships as well as extensive experience in developing and delivering an extensive array of training. Our renowned international education programs provide professionals and students around the world with programs that contribute to their professional and personal excellence. We customize our training programs to meet your needs and to promote economic development and capacity building in your region.

At the Alamo Colleges District, our international partners are an important part of our diverse community. I encourage you to consider partnering with us to meet your national, industrial, and educational vision. We look forward to the opportunity to work with you to share our quality and customized programs delivered by expert faculty to empower communities, professionals, and students for success.

Carol Fimmen  
Executive Director, International Programs  
Alamo Colleges District

“I have to say that this has been one of the most amazing experiences of my life, because this was my first time in the United States and my first International Program. Thanks to the Alamo Colleges District and UNAQ, I had the chance of being in such a great college and to make new friends.”

Jessica Ramírez Cabañas  
Student of the Upper Level Technician Program in Aircraft Maintenance, specialty in Power Plant  
Universidad Aeronáutica en Querétaro (UNAQ)
