INTRODUCTION

St. Philip's College (SPC) began offering distance education courses in 1997 with three pioneering faculty. Within a year of distance learning's introduction at SPC, 20 courses were offered, all the product of innovation, collaboration, training, technical expertise, and administrative support.

In 2020, 45.5% of higher education students in the United States were taking exclusively distance learning courses. Another 28.5% of students were taking at least some distance learning courses (Duffin, 2022)¹. The college offers Associate of Arts, Associate of Arts in Teaching, Associate of Science, Associate of Applied Science, and Certificates. Thirteen programs are 100% online and eighteen are a combination of hybrid and distance education.

Driven by best practices and research and embraced by cross-campus collaborative efforts, the College has in place the support services and systems needed to ensure the delivery of high-quality online, hybrid, and remote distance learning opportunities and instruction. To demonstrate effectiveness, in the fall of 2018, and with collaborations with the College's student support areas, the Center for Distance Learning (CDL) and the Instructional Innovation Center (IIC) led a rigorous review process that examined critical student support components set forth by the Quality Matters Online Learner Support Certification requirements. In the fall of 2019, the college received the nationally recognized Quality Matters certification mark, and at this time, SPC was listed as the third community college in the nation to earn this type of program certification. The nationally recognized award highlights the college's commitment to providing students with an exceptional online learning experience.

¹ From U.S. student distance learning enrollment 2012-2020, by Erin Duffin, May 18, 2022, Retrieved September 13, 2022 from, <https://www.statista.com/statistics/944245/student-distance-learning-enrollment-usa/>

PURPOSE

The purpose of the report is to present detailed quantitative data regarding the growth of online and hybrid courses, with a focus on trends in student enrollment in college-level courses, as well as dual credit and early college high school programs. It will also examine course completion rates and the support available for students. The institution has highlighted distance education courses, accompanied by a comprehensive assessment of the identified courses.

The awareness phase allowed the institution to share the identification and descriptive assessment of data with internal and external constituencies to document and benchmark performance. Finally, data reviewed in this report allowed for customized improvement in each educational program and division.

The CDL and IIC demonstrate several key strengths, including a highly experienced and seasoned staff, a long-standing history of effective collaboration with faculty, staff, and students, training opportunities that align with national, state, and district standards, as well as substantial administrative support and funding resources.

DISTANCE EDUCATION DELIVERY, SUPPORT, AND COMPLIANCE

Distance Education Courses and Programs

Distance Education (DE) at SPC serves a vital role in delivering college degrees and certifications to students within the San Antonio metropolitan area. The DE program was instrumental in employing measures for the institution's ways to mitigate disruptions to program delivery during the COVID-19 Pandemic. The DE platforms enabled social distancing and facilitated the delivery of courses and programs. The DE teaching and learning formats included three access methods: Hybrid/Blended, Internet based (i.e., 100% Online), and Video Tape/Digital Video Disk (DVD)/Broadcast Television. For this report, the following definitions are provided.

- An **online internet** class is taught completely online using the Canvas Learning Management System (LMS), with no classes scheduled on-campus. Courses may be offered asynchronously with people logged in at different times. Another option is for much of the course to be offered synchronously at scheduled times. The online internet class offering may require students to come to campus for an orientation, testing or labs, or complete another in-person requirement. In general, attending class is simply a matter of logging into class through their ACES portal to access their Canvas course and/or Zoom meeting with their instructor.
- A **hybrid** class is a cross between a traditional on-campus class and an online class. Some of the class will be done online, but there are regularly scheduled on-campus meetings as well. For example, students may meet once a week on campus and the rest of student learning will take place online.
- A **Video Tape/Digital Video Disk (DVD)/Broadcast Television** format uses video recordings of educational content or classes consist in video recording of educational content.

CENTER FOR DISTANCE LEARNING

The Center for Distance Learning (CDL) mission is to provide services and support to online students. The CDL supports distance students via online, email, phone, or in person. The Center also works as a liaison between various institutional departments to assure distance learning opportunities for students are appropriately supported. These services include administrative support, technical expertise, assistive software, process for verifying Student identity for an online examination, faculty training and development, and a robust online infrastructure capacity (i.e., enrollment and registration, advising, financial aid, counseling, library, special student services, bookstore, academic tutoring, and technical support).

The CDL maintains a website for students taking or considering taking distance learning courses. The site also serves as a central repository for distance learning student support services to:

- Assist students in completing the "Orientation to Online Learning" (OLRN) Course.
- Offer on-demand Zoom conferencing support.
- Provide navigational and academic assistance within the Canvas platform.
- Inform students about CDL Outreach opportunities, workshops, and college events.
- Support students via email, phone, in-person visits, computer laboratory assistance, and Zoom meetings.
- Aid with the ACES Portal for registration, grade viewing, and email access.
- Assist with accessing MS Office 365 and OneDrive through the ACES Portal.
- Provide basic assistance with Microsoft Word, Excel, and PowerPoint.
- Troubleshoot issues related to BioSig-ID Online ID Authentication.

The Center for Distance Learning (CDL) maintains a close collaboration with the Instructional Innovation Center (IIC). The IIC serves as a resource center focused on training and supporting faculty in the development of high-quality instructional materials and effective delivery strategies to enhance teaching and learning. It offers curricular and technological support and guidance to ensure faculty receive adequate training for both face-to-face and distance courses.

DISTANCE LEARNING COMPLIANCE

To support compliance with regulations and best practices that enhance student experiences and promote sustainable development, support, and maintenance of distance learning courses and programs, the college adheres to various laws and accrediting standards. This includes the standards established by The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) for Distance and Correspondence Education, as well as the Texas Higher Education Coordinating Board's (THECB) Principles of Good Practice for Electronically Offered Academic Degree and Certificate Programs (refer to Appendix 3). These guidelines serve as the minimum standards for our distance learning offerings.

The Alamo Colleges Online (ACOL) Policy E.1.9 (refer to Appendix 1) outlines a vital aspect of upholding the quality of online programs: the evaluation process. All faculty members teaching online, hybrid, and web-enhanced courses are expected to adhere to best practices established by the Quality Matters™ (QM™) Program review and the teaching and learning quality standards set forth by the Sloan Consortium.

To promote the implementation of effective teaching and learning practices and policies, a structured review process has been established to adhere to the alignment standards set forth by the QM™ Program. The QM™ Program is a nationally recognized, faculty-centered peer review process designed to certify the quality of online course design and its components. This review process serves as a research-based evaluation tool to (1) assess the quality of course design, (2) enhance student learning, and (3) provide guidance for ongoing improvements.

The Sloan Consortium supports institutions and faculty members in enhancing the quality of online education through the utilization of a Quality Scorecard for the Administration of Online Programs. The established benchmark standards for online teaching and learning are as follows: (1) Course Development and Instructional Design, (2) Course Structure, (3) Teaching and Learning, (4) Social and Student Engagement, and (5) Assessment and Instructor Feedback.

St. Philip's College upholds the State Authorization Reciprocity Agreement (SARA), a national initiative aimed at enhancing access to online courses while ensuring adherence to compliance standards set by state regulatory agencies. SARA enables institutions to offer online courses beyond their home state by obtaining and maintaining state approvals through an efficient process. Institutions that are authorized by their respective states to participate in SARA must possess appropriate accreditation and meet academic and financial criteria established to safeguard and benefit students.

To maintain compliance with SACSCOC accreditation standards and District Policy, the college has established a Distance Learning Compliance Committee. This committee meets several times each

year to assess the status of online enrollments, programs, technology, online student support, and faculty development for online instruction.

DATA ANALYSIS / ASSESSMENT

Figure 1 This document presents a visual representation of the number of distance education programs categorized by degree type, including Associate of Arts (AA), Associate of Arts in Teaching (AAT), Associate of Science (AS), Associate of Applied Science (AAS), and Certificates (CERT). There are a total of nineteen programs offered entirely online, along with eight programs that utilize a combination of hybrid and distance education instruction.

Figure 1 – DE Programs by Degree and Certificate

Source: Institutional Summary from SACSCOC Reaffirmation 2025 Distance and Correspondence Education Includes "credit-bearing educational programs (degrees, certificates and diplomas) where 50% or more of the credit hours are delivered through distance education modes."

STUDENT ENROLLMENT

Figure 2 confirms the SPC experienced growth in student enrollment in distance education courses for Fall and Spring semesters from the period Fall 2018 to Spring 2025.

Figure 2 – DE Student Enrollment Fall & Spring

Figure 3 indicates that SPC experienced an increase in student enrollment in distance education courses during each Summer semester from Summer 2018 to Summer 2024. Contributing factors to this growth include the impact of the Covid-19 pandemic, the availability of relevant, affordable, and flexible education and training options, as well as the ability to accommodate individuals who may face challenges attending on-campus classes due to family and work responsibilities, age, time constraints, and logistical challenges.

Figure 3 – DE Enrollment Summer

DISTANCE EDUCATION COMPLETION RATES

The Distance Education Completion Rates reflect the proportion of students who remain enrolled in a class without withdrawing. The Institution consistently assesses student Productive Grade Rates (PGR), which represent the percentage of students who successfully complete the course with a grade of A, B, or C.

The Productive Grade Rates (PGR) of student achievement is closely linked to student performance in courses, as successful completion of coursework is essential for preparing students for graduation, entering the workforce, or pursuing further education. St. Philip's College actively monitors the PGR completion rates of Dual Enrollment (DE) students. The minimum threshold goal for PGR Student Achievement at St. Philip's College can be found at the following link on the institution's website. <https://www.alamo.edu/spc/about-spc/strategic-plan/mission-vision-and-values/student-achievement-goals/>

Figures 4 and 5 demonstrate that the DE Successful Completion Rates surpassed the minimum threshold goal for PGR Student Achievement at St. Philip's College for all semesters during the reporting period from Fall 2018 to Spring 2024.

Figure 4: DE Successful Completion Rates Fall & Spring semesters

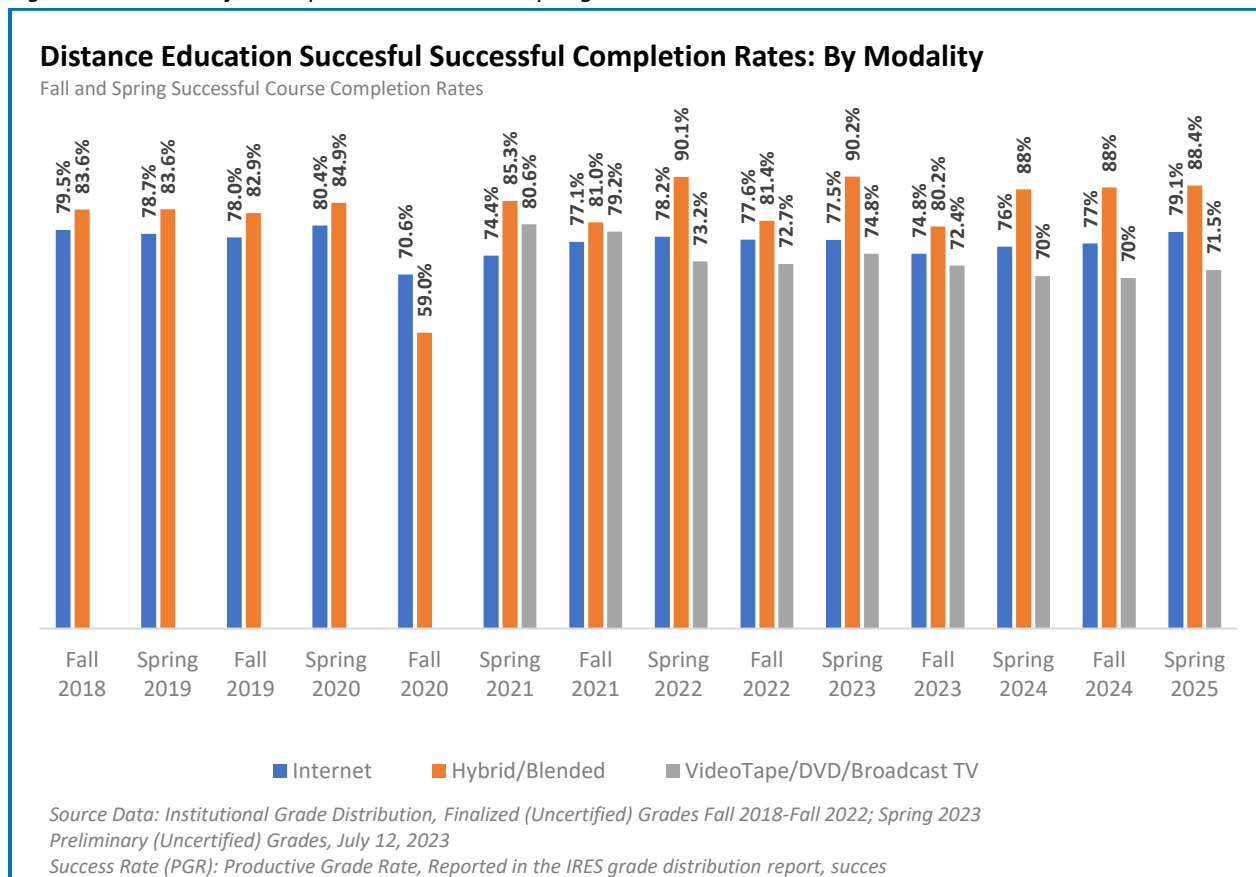

Figure 5: Distance Educational Successful Course Completion Rates: By Modality (summer)

CORE CLASS SECTION INFORMATION

The core curriculum, as established by Alamo Colleges and the Texas Higher Education Coordinating Board (THECB), includes courses designed to enhance essential intellectual competencies in Reading, Writing, Speaking, Listening, and Critical Thinking. The Distance Education delivery modality at St. Philip's College is in accordance with the policies of Alamo Colleges and THECB, providing an important avenue for students to meet the core curriculum requirements necessary for earning college degrees and certificate programs.

Analysis of the data for Distance Education (DE) core classes from Fall 2018 through Spring 2025, as illustrated in Figure 6, demonstrates a significant increase in utilization over this six-year period, particularly with Internet and Hybrid course formats. During this time, DE has successfully maintained operational continuity from Spring 2019 through Spring 2025, effectively addressing the challenges posed by the COVID-19 pandemic and the associated need for social distancing measures.

Figure 6: DE Core Class Section Information Fall & Spring semesters

Figure 7 provides an overview of student enrollment in Core Courses from Summer 2018 to Summer 2024. Notably, the Video Tape/DVD/Broadcast Distance Education category became a significant method of course delivery beginning in Summer 2018 and continued through Summer 2024.

Figure 7: DE Core Class Section Information, Summer semesters

Figure 8 DE Non-Core courses during the six-year performance period for Fall & Spring are depicted in

Figure 8: DE Non-Core Class Section Fall & Spring semesters

CERTIFIED DISTANCE EDUCATION CLASS SECTIONS

Figures 9 and 10 offer a comprehensive overview of Certified Data. This data has been subjected to a thorough review process in which State and institutional mandated outcome data were verified for accuracy. The Certification of Accuracy of Data form has been signed to confirm the integrity of this data. The information presented in Figures 9 and 10 reflects data reported to the Texas Higher Education Coordinating Board (THECB) and has undergone a verification process at St. Philip's College, ensuring it is finalized for each term or academic year. Figure 9 illustrates an increase in the utilization of DE Class sections during the Fall and Spring semesters, demonstrating growth from Fall 2018 to Spring 2025. Figure 10 illustrates the growth trends observed during the Summer semesters from 2018 to 2024.

Figure 9: Certified DE Class Sections Fall & Spring semesters

Figure 10: Certified DE Class Sections Summer semesters

DUAL CREDIT, EARLY COLLEGE HIGH SCHOOL (ECHS), AND P-TECH

St. Philip's College Early College High School (ECHS) and Dual Credit programs collaborate with various high schools throughout San Antonio and the surrounding areas. Participation in the ECHS programs is enhanced through the use of dual enrollment. ECHS students can begin their college coursework as early as the ninth grade, allowing them to complete a greater number of college courses within a four-year timeframe. Traditional dual enrollment programs typically restrict students to a maximum of two college courses per semester during the 11th and 12th grades.

Enrollment data indicates that Hybrid/Blended courses are utilized significantly less frequently than Internet-based courses. In the initial years of this five-year assessment (2018-2025), Dual Credit enrollment and P-TECH was observed to be higher than both Early College High School and Academy enrollment. However, starting from Fall 2018 through Spring 2025, the utilization of Distance Education began to surpass Dual Credit enrollment.

By the Fall 2018 and Spring 2025 semesters, the DE department played a crucial role in supporting the continuity of academic operations and provided a platform to facilitate student success amidst the challenges presented by the Covid-19 pandemic. The following charts illustrate the trends for Dual Credit, Early College High School, Academy programs, and P-TECH.

Figure 11: Dual Credit Enrollment for Fall, Spring, and Summer semesters (Duplicated)

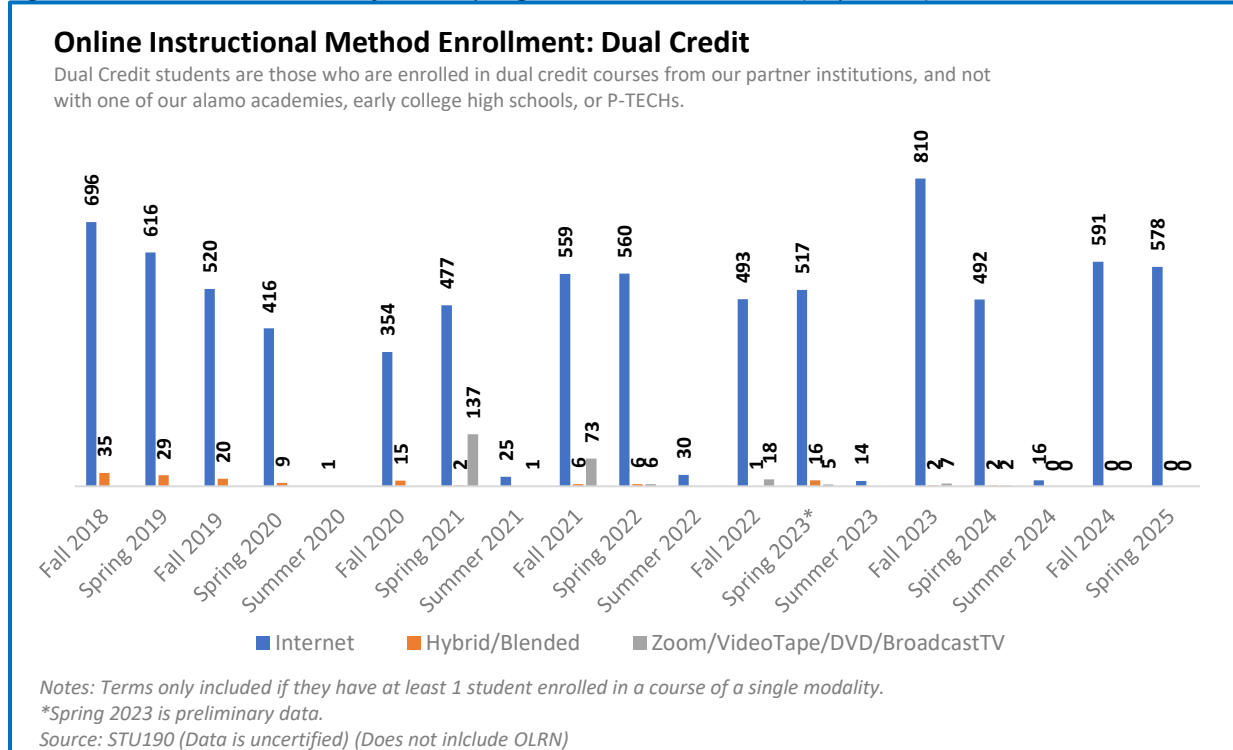

Figure 12: Early College High School Enrollment Fall, Spring, and semesters (Duplicated)

Figure 13: Academy Enrollment Fall and Spring semesters (Duplicated)

Figure 14: Online Instructional Method Enrollment: P-TECH

THE ORIENTATION TO ONLINE LEARNING (OLRN)

The Orientation to Online Learning (OLRN) course is designed to provide students with the essential skills needed to enroll in, navigate, and succeed in online courses. The OLRN curriculum includes training on the Learning Management System, various online communication platforms (such as Zoom), and guidance for addressing technology-related inquiries and software applications (including Microsoft Office 365). Furthermore, it assists students in identifying valuable resources such as tutoring, library services, and academic support.

The St. Philip's College Center for Distance Learning oversees the management of OLRN courses and is responsible for addressing all inquiries from both students and faculty. Each semester, multiple sections of the OLRN course are offered. Students may register for this complimentary, non-credit course (OLRN 0001) through their academic advisor or opt for self-registration, following the same process as for any other course. Figures 15, 16, and 17 provide a visual representation of OLRN enrollment, illustrating actual enrollment figures by semester for Fall, Spring, and Summer sessions from 2018 to 2024.

FIGURE 15: OLRN FALL TERM ENROLLMENTS

Figure 16: ORLN Spring Term Enrollments

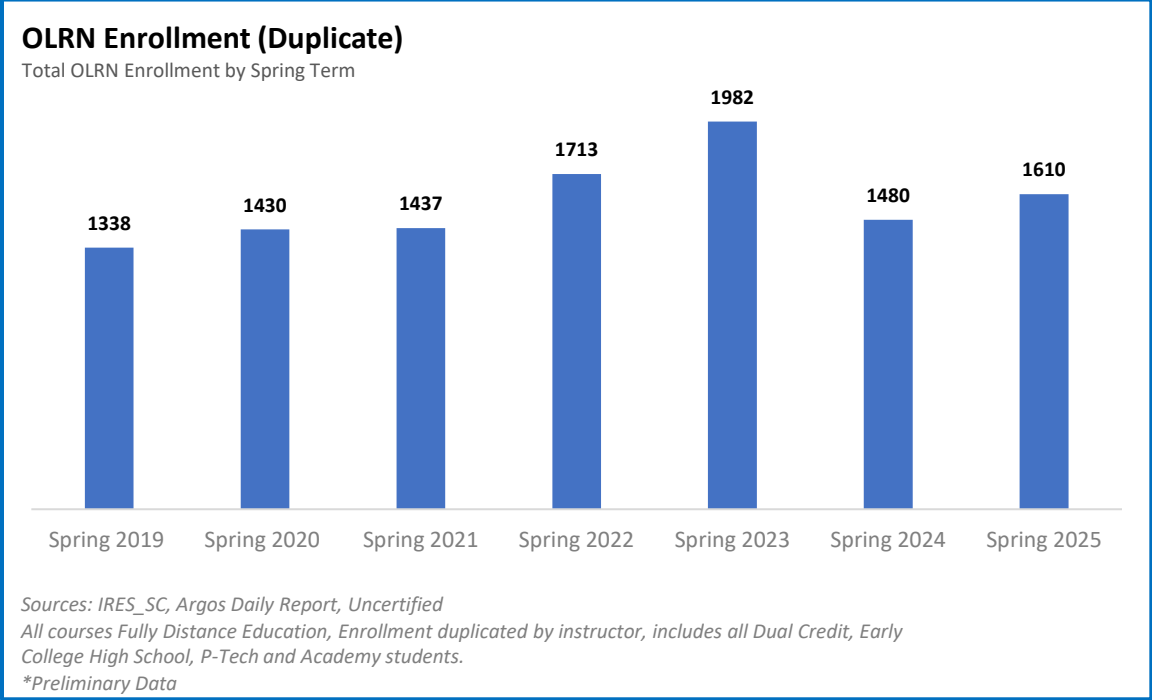

Figure 17: ORLN Summer Term Enrollments

DISTANCE EDUCATION AWARENESS

For this report, internal factors comprise members of the SPC community, while external factors encompass individuals and entities outside the organization. The findings will be disseminated and presented internally to relevant stakeholders, including both academic and non-academic divisions. Additionally, this report will be presented at external venues, including but not limited to local, state, regional, and national conferences.

INTERNAL

Clear and comprehensive information regarding student support for distance education programs is available on the college's websites for students who are enrolled in or considering these programs or courses. This includes details on admissions, tuition, materials, technical requirements, learning expectations, and available support, such as:

- An online orientation that prepares students for distance learning and evaluates their readiness.
- Accessible technical support offered through in-person assistance, Zoom meetings, and telephone consultations to aid distance education students, along with available resources.
- Continuous support for faculty and staff through workshops and presentations delivered in both classroom settings and via Zoom, focusing on distance education resources.

EXTERNAL

From Fall 2018 to Spring 2025, faculty and staff participated in and/or delivered presentations at various national, state, and local conferences, including Canvas (LMS), the Texas Distance Learning Association, the Online Learning Consortium, as well as college and district workshops.

DISTANCE EDUCATION CONTINUOUS IMPROVEMENTS

The Center for Distance Learning will launch a Student Satisfaction Survey which will be administered each fall and spring semester moving forward. The purpose of this survey is to assess various dimensions of student support and their academic experiences. The insights gathered will be crucial for identifying strengths and opportunities for improvement, as well as for formulating actionable strategies to enhance overall satisfaction and elevate the quality of distance education. Results will be communicated to both internal and external stakeholders.

SUMMARY

This report is structured around four key areas for assessing trends in Distance Education (DE): Identification, Assessment, Awareness, and Continuous Improvement. The findings indicate that the College consistently exceeded the Program Growth Rate (PGR) target of seventy percent throughout each semester within this reporting period. Furthermore, it is essential to emphasize that the growth of DE at SPC plays a significant role in the college's ability to fulfill its institutional mission. DE is crucial in supporting SPC faculty, staff, and students in their learning and in obtaining the educational credentials necessary for achieving Student Success and Performance Excellence.

Distance Education plays a vital role in the academic framework at St. Philip's College. As detailed in this report, Distance Education courses and programs offer students flexible learning opportunities. This flexibility proved to be especially essential during the spring of 2020, when the coronavirus pandemic began to impact educational systems across the United States. Supporting student success is imperative for the continued advancement of our distance education programs and courses. The Center for Distance Learning is committed to delivering innovative and resourceful solutions to foster an enriching educational environment for both distance education faculty and students.

As new pedagogical strategies and technological applications are developed, ongoing professional development opportunities will play a crucial role in fostering continuous growth and support for faculty, staff, and students through training initiatives.

The Distance Education Compliance Committee, along with the Center for Distance Learning, the Instructional Innovation Center, and the Office of Institutional Planning, Research and Effectiveness, will continue to ensure that the institution's Distance Education program undergoes regular and systematic review and enhancement. The insights presented in this report empower college leadership to monitor the growth and effectiveness of its Distance Education initiatives, to identify successful programs, and develop strategies for the ongoing improvement of all programs at St. Philip's College.

APPENDIX 1: ALAMO COLLEGE ONLINE LEARNING POLICY

E.1.9 (Policy) Online Learning

Responsible Department: Vice Chancellor for Academic Success

Board Adoption: 1-21-14

Last Board Action: 1-21-14

Last Amended: 11-15-16

The Alamo Colleges recognize the value of online learning and are committed to providing learners of diverse backgrounds with access to programs and services that will prepare students to lead in a global society. The Alamo Colleges' Online Program is committed to providing a high-quality educational experience that aligns with best practices in electronically delivered and technology enabled teaching and learning.

The faculty across the Alamo Colleges will collaborate in the development and distribution of specific procedures related to distance education, online learning (fully at a distance, hybrid, or web enhanced), faculty certification, student orientation, appropriate notification of presence to state authorities, and all other relevant areas. The academic oversight of curriculum and instruction rests with faculty at the respective colleges.

An Advisory Committee of faculty from across the colleges will collaborate on procedures and guidelines to facilitate the development of fully online courses, certificates, and degree programs. Online learning shall be governed by this policy, related procedures, and other publications and guidelines produced by ACOL in collaboration with the established Advisory Committee of faculty from across the colleges.

APPENDIX 2: INSTITUTIONAL MEMBERSHIPS AND COLLEGE RANKING

	<p>As a member of NC-SARA, St. Philip's College ensures that it meets requirements related to students who reside outside of Texas and who are enrolled in our online courses. The college submits annual reports to NC-SARA with the number of out-of-state students enrolled in our online classes.</p>
	<p>As a member of OLC, St. Philip's College has access to up-to-date and high-quality faculty and staff development resources such as webinars, courses, publications, and conferences related to distance education. The following is an excerpt from the organization's website.</p>
	<p>As a member of ITC, St. Philip's College has access to professional development, collaborative opportunities, research, and innovative practices in distance education. ITC is an affiliated council of the American Association of Community Colleges (AACC). ITC also tracks federal legislation that affects distance learning and conducts annual professional development meetings.</p>
	<p>Additionally, several faculty and staff are members of the Texas Distance Learning Association (TxDLA) and participate in annual conferences, webinars, or professional development programs.</p>
	<p>SR Education Group named St. Philip's College # 10 with the 2020 Best Online Community Colleges in Texas. Eligible schools were ranked according to their scores, and scores were calculated according to an internal formula that incorporates retention rate, online enrollment percentage, and the number of online associate degrees offered. https://www.guidetoonlineschools.com/online-schools/st-philip-s-college?lvl=32</p>
	<p>Niche rankings are based on rigorous analysis of key statistics from the U.S. Department of Education and millions of reviews. St. Philip's College was rank the #11 best community college in Texas. https://www.niche.com/colleges/st-philips-college/</p>

APPENDIX 3: GLOSSARY

Alamo Colleges	The collective reference to all five colleges within the Alamo Community College District. The term Alamo Colleges includes Northeast Lakeview College, Northwest Vista College, Palo Alto College, San Antonio College and St. Philip's College. For additional information visit the Alamo Colleges at http://www.alamo.edu . (Source: IRES https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
Certified Distance Education Class Sections	Certified Distance Education Class Sections are those sections in which the data has undergone the process of reviewing State and County mandated outcomes for accuracy and signing the Certification of Accuracy of Data form indicating that the data is accurate.
Completion Rates	In IRES Grade Distribution report, the measure of completed grades relative to total enrollment is expressed as a percentage ($A+B+C+D+F+IP+I+P$ /Total Enrollment). (Source: IRES "Quick Links" https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
Core Curriculum	The common part of every undergraduate curriculum that introduces students to a broad range of areas beyond their major and helps students develop basic intellectual competencies in reading, writing, speaking, listening, critical thinking, and computer literacy. In Texas the core curriculum usually consists of 42-48 semester credit hours of course work distributed among the disciplines of communication, mathematics, the natural sciences, the arts and humanities, and the social and behavioral sciences. State law mandates the transfer of core curriculum courses between all public institutions of higher education. (Source: IRES https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
Core Course	A course that is part of the 2019-2020 St. Philip's College Core Curriculum. (Source: https://myspccatalog.alamo.edu/content.php?catoid=177&navoid=10919)
Distance Education	The formal educational process that occurs when students and instructors are not in the same physical setting for the majority (more than 50 percent) of instruction. (Source: IRES https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
Dual Enrollment or Dual Credit	The simultaneous enrollment of a student at a high school and in a college course which is offered through regular campus schedule or at the high school. Source: IPRE
Duplicate Enrollment	Indicates enrollment by the same student in more than one course. (Source: IRES "Quick Links" https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)

Enrollment Data	<p>Data representing the number of students enrolled in each course section. Enrollment data used in this report includes duplicate numbers in that individual students may be enrolled in more than one distance education course section. An IRES report that provides same-day, year-to-year enrollment comparisons by college and term.</p> <p>(Source: IRES “Quick Links” https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)</p>
Hybrid Course	<p>A distance education course in which a majority (more than 50 percent but less than 85 percent) of the planned instruction occurs when the students and instructor(s) are not in the same place.</p> <p>(Source: Texas Higher Education Coordinating Board Distance Education Policies, 2015)</p>
Non-Core Course	<p>A course that is not part of the 2019-2020 St. Philip’s College Core Curriculum.</p> <p>(Source: https://myspccatalog.alamo.edu/content.php?catoid=177&navoid=10919)</p>
Online Course	<p>A fully distance education course may have mandatory face-to-face sessions totaling no more than 15 percent of the instructional time.</p> <p>(Source: Texas Higher Education Coordinating Board Distance Education Policies, 2015, THECB Web site - http://www.txhighereddata.org/ then go to Resources/glossary, retrieval date – August 14, 2019)</p>
Orientation to Online Learning (OLRN)	<p>The OLRN 0001 course is required of all students who are new to online courses. The free, self-paced, online course familiarizes students with the learning management system, Canvas, and presents topics to help students succeed in their online courses.</p> <p>(Source: Distance Learning web page, https://www.alamo.edu/spc/academics/distance-learning/)</p>
Productive Grade Rate (PGR)	<p>Productive Grade Rates (PGR) of student achievement are directly tied to student performance in courses since successfully completing coursework helps prepare students for graduation, entering the workforce, or continuing their education. The Institution regularly evaluates productive grade rate (the percentage of students who successfully complete the course with an A, B, or C grade) and the PGR Student Achievement minimum threshold goal at St. Philip's College is 70%. https://www.alamo.edu/spc/about-spc/strategic-plan/student-achievement-goals/</p>
Section Count	<p>The sum of course sections. A specific course is offered for credit. Sections range from one to four semester credit hours (SCH).</p> <p>(Source: IRES “Quick Links” https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)</p>

Successful Rates	In IRES Grade Distribution report, the measure of success grades relative to total enrollment is expressed as a percentage (A+B+C/Total Enrollment) (Source: IRES “Quick Links” https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
Trends	A reporting technique that measures one or more variables over a specified period of time to identify changes. (Source: IRES “Quick Links” https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
True First Time in College	The IRES methodology used to calculate first-time-in-college students with no previous Alamo Colleges academic history. IRES uses the standard THECB FTIC methodology to establish the base FTIC Cohort, then checks to see that the student is not in any other term before the FTIC term, excluding dual credit terms. (Source: IRES “Quick Links” https://www.alamo.edu/spc/about-spc/college-offices/planning-research-and-effectiveness/)
