

2026 PRESIDENT'S NEWSLETTER

President's Message

For decades, the Health Sciences programs at St. Philip's College have played a vital role in meeting the growing demand for skilled professionals in the ever-expanding healthcare industry. As healthcare continues to evolve, our commitment remains steadfast to prepare students for successful careers and meaningful lives of service and leadership.

This commitment is especially important in San Antonio, where the healthcare and bioscience industries contribute \$44.1 billion annually to the region's economy and account for one in five local jobs. This underscores the

critical role St. Philip's College plays in developing the city's workforce.

The history of our Health Sciences programs reflects a legacy of innovation, responsiveness, and excellence. Through dedicated faculty, industry partnerships, and a student-centered approach, these programs have helped prepare countless graduates to enter high-demand professions and make lasting contributions to the health and well-being of our region.

The mission of Health Sciences extends beyond technical training. Our programs educate students to become productive, responsible citizens

who bring compassion, integrity, and professionalism to their workplaces and communities. Whether caring for patients, supporting families, maintaining critical medical equipment, or advancing healthcare technologies, our graduates embody the values and excellence that define St. Philip's College.

By continuing to invest in innovative curriculum, emerging technologies, and workforce partnerships, we remain committed to developing the next generation of healthcare professionals who will serve and strengthen our communities for years to come.

SPC Participates in Nation's Largest MLK Celebration

Nearly 300 St. Philip's College students, staff, and faculty joined thousands of San Antonio residents on Monday, Jan. 20, for the 39th Annual Martin Luther King Jr. March, the nation's largest MLK celebration.

The march began at Martin Luther King Jr. Academy and stretched nearly three miles, ending at Pittman-Sullivan Park. Along the route, participants reflected the city's spirit of community, walking to celebrate Dr. King's legacy.

James Cooper, Interim Dean for Academic Success, Academic Services, said, "I'm from Chicago, and this is my first time participating in the march. Walking the route, I could see the impact St. Philip's College has on the entire city

and feel the college's leadership presence on the eastside of San Antonio." This year's theme, "Diversity unites us, love leads us, and action propels us," emphasized the ongoing relevance of King's message. Despite the cold, hundreds of thousands of people transformed the East Side into a vibrant display of unity and determination.

St. Philip's College proudly marched in the education section of the parade, joining other local schools such as sister colleges San Antonio College and Palo Alto College.

"Growing up, I attended the march every year with my siblings and Papa. Coming back as an adult with St. Philip's College brought those memories flooding

back," said St. Philip's College student Anthony Clark. "I'm always amazed by the incredible turnout and the way so many people come together in unity. The march is also a chance to reconnect with members of my community."

Three-time Olympic gold medalist and U.S. gymnast Gabby Douglas served as the keynote speaker, while Grammy Award-winning singer and actress Coco Jones performed at the conclusion of the march festivities.

The first march took place in 1968, just days after Dr. King's assassination, and the annual event has grown into a citywide tradition celebrating equality and justice.

San Antonio's MLK March, often recognized as the largest in the nation, typically draws 300,000 or more people.

Adriael L. Simien-Falduto, Dean for Student Success, Educational Support Services; George H. Johnson III, Vice President for College Services; and Dr. Malukah Pitts Harvey, Vice President for Student Success, pose for a photo during the Martin Luther King Jr. March.

SPC Culinary Students Serve 15,000 Tacos and Receive \$15,000 Scholarship at Cowboy Breakfast

Anthony Cubit, a former St. Philip's College student and member of the Texas Chefs Association, works the grill while cooking chorizo and eggs during the Cowboy Breakfast event.

The St. Philip's College (SPC) Tourism, Hospitality and Culinary Arts Department received a \$15,000 scholarship from the San Antonio Stock Show & Rodeo during the Annual Cowboy Breakfast on Jan. 30 at the Frost Bank Center.

Seventy-five St. Philip's College Culinary Arts students participated in the early-morning event, arriving at 2 a.m. to begin food preparation. The breakfast ran from 5 to 10 a.m. Under the leadership of Chef John Munoz, students prepared and served approximately 15,000 tacos total, including bean and cheese, bacon and egg, chorizo and egg, and sausage and egg.

Other chef instructors included Frank Salinas, Felicia Blome, Laura Limon, Sarah Pequeño and hospitality instructor David Uminski. The Cowboy Breakfast serves as the opening event for the San Antonio Stock Show & Rodeo Bar-B-Que Cook-Off weekend. Thousands of San Antonio residents enjoyed complimentary parking, breakfast tacos, coffee, and other beverages. The event also featured rodeo merchandise, live music, and family-friendly activities.

St. Philip's College has partnered with the Cowboy Breakfast for more than 20 years, with total scholarship donations connected to the partnership reaching \$65,000. "This is my second year volunteering at the Cowboy Breakfast event. I wanted to help and mentor newer students, sharing the best advice I can to help them continue the tradition. I really enjoy meeting new faces in our Culinary Arts program and reconnecting with those I already know," said SPC Culinary Arts Student Patricia Pardo.

SPC BBQ Cook-Off Committee Learns From San Antonio Stock Show & Rodeo

The St. Philip's College CultureFest & Rib Cook-Off Committee visited the San Antonio Stock Show & Rodeo Bar-B-Que Cook-Off on Jan. 30 to observe judging procedures and strengthen the structure of the college's CultureFest & Rib Cook-Off culinary competitions.

Committee members attended at the invitation of rodeo representative Amy Huebner to experience the judging process firsthand. The Bar-B-Que Cook-Off, one of the largest in the nation, was held on Gambler Road as part of the annual San Antonio Stock Show & Rodeo festivities.

The group observed judging in the ribeye and bean categories, studying how entries were organized, how judges were managed, and the requirements necessary to serve as a judge. "It was very enlightening to watch the judging process," CultureFest

Co-Chair and Dean for Student Success, Enrollment Management Andres C. Arredondo said. "After each ribeye sample, a palate cleanser is required, allowing judges to reset before evaluating the next entry." Formed in Fall 2025, the committee meets weekly to codify standard operating procedures aimed at creating a seamless, professional judging structure for CultureFest. The goal is to increase competitiveness and align the event more closely with rodeo standards to boost participation and ensure a consistent judging structure to elevate competition year after year.

The updated structure will apply to all three CultureFest food categories: ribs, non-alcoholic beverages, and desserts. The committee expects approximately 20 entries per category, for a total of 60 submissions. This year, judging will take place in the Heritage

Room, a multipurpose space in the Cybersecurity Innovations Center.

Among the proposed changes are formalized standardized scoring rubrics and equipment purchases, such as official time clocks for entry submissions.

"It was exciting to have the opportunity to meet judges and competitors alike," Dean Arredondo said. "It allowed our committee to actualize our goals to produce a more competitive environment. We want to match the level of professionalism that our Culinary Arts students bring to the Cowboy Breakfast."

SPC Faculty Member Beatrice Avila Celebrates Family Legacy in Education

Shown here from left: Avila's sister, Julianna Navarro, Avila's daughter Julissa Avila, Avila's mother Mary Ann Navarro, Beatrice Avila, St. Philip's College President Dr. Adena Williams Loston, Alamo Colleges District Chancellor Dr. Mike Flores, and Board of Trustees Chairman Dr. Clint Kingsbery.

Beatrice Avila, Program Director and Assistant Professor at St. Philip's College (SPC), was recently recognized as the Alamo Colleges District Employee of the Month during a district Board Meeting.

Working at SPC has become a family affair for Avila, whose academic and professional journey has inspired multiple relatives to follow similar educational paths. A total of five family members attended the Board Meeting to support her as she was recognized, including her sister and two daughters.

Avila is an SPC alumna, graduating in 1998 from the Health Information Technology (HIT) program. She was the first in her family to attend college, a milestone that helped pave the way for her own children.

"Teaching students on the same campus and in the same program I attended is so rewarding," Avila said. "It's a full-circle moment where I can pass on the knowledge I gained."

She added that she enjoys sharing personal experiences with her students. "I love my 'when I was a student' moments in my classroom," she said.

She joined the college's Health

Information Technology program as a full-time faculty member in 2020 after previously serving as an adjunct instructor at Palo Alto College and Northwest Vista College.

Her family's ties to the Health Information Technology field continue to grow. Her daughter, Julissa Avila, graduated from the SPC HIT program in 2019. Her sister, Julianna Navarro, and niece, Alyssa Mata, both completed the program in 2022.

Higher education has remained a shared value across generations of the family. Avila's mother graduated from Palo Alto College in 2005 through the Teacher Education Program. Her son is currently attending Palo Alto College, studying computer networking, while another niece is enrolled in the Dental Hygienist Program.

Last year, Avila established an endowed scholarship at St. Philip's College titled the Avila Legacy for Health Information Management Technology Scholarship, created to support future students pursuing careers in the field.

"I wanted the name to reflect my family's legacy in the Health Information

Management field," Avila said. "We are proud to have strong women in the healthcare profession."

She traced that legacy back generations, noting that her grandmother worked in a doctor's office during World War II, and her great-great-grandmother in England worked in a hospital managing patient records.

"Me, my daughters, my sister and my nieces carry that legacy with us today in our professions," she said.

Avila said she chose St. Philip's College after researching programs in the region and discovering that its Health Information Technology program was the only one in San Antonio accredited by the Commission on Accreditation for Health Informatics and Information Management Education at the time and is one of the college's oldest Associate of Applied Science degree programs.

Today, as both an educator and alumna, Avila continues to shape the next generation of health information professionals, reinforcing her family legacy rooted in education, service, and family.

SPC Director Speaks at Texas Preventing Targeted Violence Conference

On March 2 – 5, St. Philip’s College (SPC) was represented at the second annual Texas Preventing Targeted Violence Conference, where Dean for Student Success, Educational Support Services Adriael L. Simien-Falduto, and Director of Student Conduct and Title IX Alexandra Rodriguez Figueroa, met with higher education and community leaders from across the state to discuss strategies for identifying and preventing targeted violence.

During the panel, Rodriguez Figueroa discussed how her work in Student Conduct and Title IX compliance informs her approach to behavioral threat assessment and management through the college’s Strategies of Behavioral Intervention Team.

The discussion highlighted the importance of balancing supportive interventions with accountability and due process when addressing concerns for student behavior. Rodriguez Figueroa shared how early intervention is implemented, including how quickly staff connect with students and what those outreach conversations typically involve. She also discussed challenges related to conflicts fueled by social media and peer escalation, along with strategies that help de-escalate situations and promote resolution.

Rodriguez Figueroa said the event provided an opportunity to highlight the college’s ongoing commitment to student safety.

“Participating in the conference was a meaningful opportunity to highlight the important work we are doing to support student safety and well-being at St. Philip’s College. Engaging with colleagues from across the state reinforced the value of collaboration and shared

learning in preventing targeted violence. I was honored to contribute to the conversation and to represent our college’s commitment to proactive, student-centered intervention,” she said.

Shown here from left: Alexandra Rodriguez Figueroa, St. Philip’s College Director of Student Conduct & Title IX, Malcom McGuire, Southern Methodist University Threat Assessment Investigator, Ryan Medina, University of Texas – San Antonio Behavioral Intervention Team Manager & Co-Chair, and Dr. Bruno Dias, Key Operational Insights Co-Founder/ Principal Consultant.

SPC Hosts the 2026 Jessica’s Project Spring Symposium

On April 9, 2026, St. Philip’s College welcomed students, faculty, and community partners to its Jessica’s Project Spring Symposium, which highlighted the theme “Living Donation: Life Given, Life Gained” and emphasized the life-saving impact of organ donation.

The event drew 144 student attendees, featured 27 student research posters, included 10 vendors and showcased five guest speakers, three of whom shared personal experiences as living organ donors.

Serving as mistress of ceremonies, Dr. Amanda Treviño reflected on the program’s significance.

“Jessica’s Project was a powerful reminder of what we can achieve with a shared purpose to learn, uplift and support each other,” Dr. Treviño said. She also shared a personal connection to the topic, noting her grandmother’s battle with kidney cancer and need for a transplant.

The symposium highlighted stories from living donors, including Dr.

Meagan Sovine, who donated a kidney to her cousin; Dr. Kelly Hitchman, who initially donated to an anonymous recipient and later formed a friendship; and Rachel Quigley, who donated a kidney to her father.

Quigley’s story provided one of the event’s most emotional moments as she described her father’s journey through organ failure and transplant. Following the procedure, her father now lives with four kidneys, a rare but possible outcome when transplanted organs are added without removing existing ones.

The symposium, designed to connect classroom learning to real-world issues, began in 2012 when Dr. Solomon Nfor organized students to research celiac disease. What started as a single class project has since grown into a multi-disciplinary effort spanning topics such as diabetes, mental health, COVID-19 and substance abuse.

During the symposium, student presenters explored organ donation through scientific, ethical and community perspectives, while attendees engaged with local organizations and campus partners, including the San Antonio Food Bank.

Vice President for Academic Success Randall Dawson underscored the urgency of organ donation in his welcome remarks, noting that thousands of individuals in Texas remain on transplant waiting lists.

“Today, we will focus on the impact donating has, along with hearing what we can do to help,” Dawson said.

Jessica’s Project continues each semester at St. Philip’s College, providing students, faculty and staff with opportunities to apply their skills in service to the community while raising awareness about critical public health issues.

SPC Names Larry Canion as 2026 Minnie Stevens Piper Nominee

St. Philips College (SPC) is proud to announce Professor Larry Canion as its 2026 Minnie Stevens Piper Nominee.

Professor Canion began his educational journey after seeing a commercial promoting an aviation program in San Antonio, which led him to pursue an Associate of Applied Science in Aviation Maintenance from Hallmark Institute of Technology. He later earned his Federal Aviation Administration (FAA) airframe

and power plant licenses and became the first in his family to earn a college degree and pursue an aviation career.

After completing his credentials, he worked at an airport in Lockhart while serving in the Texas National Guard, where he gained full-time experience working on helicopters. He later transferred to the Army Reserve in Conroe, continuing his aviation maintenance work before retiring from military service in 2003 and returning to the Gonzales area.

Professor Canion continued his education, earning a Bachelor of Business Administration in management from Texas A&M University-San Antonio. He later returned to Hallmark College to teach aviation maintenance before launching his own training business, Canion Aviation, in 2015. Through the company, he prepared students for FAA written, oral, and practical examinations for more than six years.

Throughout his aviation career, he has worked on several helicopter models,

including the R-22, Bell 206/OH-58A/C, Bell UH-1, Bell 412, AH-1S, AH-64A, UH-60A, and BO-105CBS. He also has experience maintaining multi-engine and single-engine reciprocating airplanes, including Cessna and Piper aircrafts.

Since 2019, he has served as Assistant Professor and Program Director for the Aircraft Technician Program at St. Philip's College. He is known for emphasizing hands-on instruction and real-world applications to prepare students for aviation careers.

Student course evaluations frequently highlight his commitment to student success and engaging teaching style. College leaders and students describe him as dedicated to advancing aviation education and supporting student achievement.

"I love teaching," Professor Canion said. "It lets me shape lives, not just lessons. I help others discover who they are and what they can do. I have a passion for aviation, and it is rewarding to see where students go in this industry."

SPC Names Patricia Lamson as 2026 Teaching Excellence Awardee

St. Philip's College (SPC) has named Patricia Lamson, Assistant Professor and Clinical Coordinator of Health Information Technology, as the recipient of the college's 2026 Teaching Excellence Award, recognizing her innovation in the classroom, commitment to student success, and service to the community.

Lamson is a Registered Health Information Technician and holds a certificate in Cancer Data Management, along with multiple teaching certifications. She earned an associate degree in health information technology from SPC in 2013, where she was an honors award recipient, a member of Phi Theta Kappa, and a Presidential Scholarship recipient. She later earned a bachelor's degree in health care management from the Baptist School of Health Professions.

As a proud SPC graduate, she brings both professional expertise and a personal connection to her teaching methods. Lamson is known for transforming complex medical concepts into engaging, interactive learning experiences. Her creative teaching methods include hands-

on activities such as an "Indiana Bones" escape room and a "Kill the Patient" assignment, both designed to strengthen critical thinking, encourage collaboration, and reinforce real-world application through group exercises.

Lamson was one of the first faculty members in the Alamo Colleges District to develop two digital badges within a single course, setting a standard that inspired other faculty to adopt similar instructional practices.

Her contributions extend beyond the classroom. Lamson co-leads Jessica's Project and the Faculty Student Mentoring Program and actively participates in the Caring Campus Initiative, programs focused on strengthening student connection, engagement, and belonging. She also teaches Continuing Education courses to expand access to professional learning opportunities.

Her community service includes volunteer work with the Baptist Healthcare System, the Audie Murphy VA Hospital, and the San Antonio Police Blue Santa program.

With seven years of teaching experience, Lamson said the award represents a deeper meaning of success.

"I am humbled to receive this recognition, and I gladly accept it," she said. "I never thought I'd be honored like this. Excellence has a new definition for me. It isn't about degrees or titles, it's about being human and showing compassion."

SPC Hosts 17th Annual Golf Tournament

Dr. Adena Williams Loston poses with first-place winners Andres C. Arredondo, Steven Zuniga, and Steve Rocha II, along with Phil the Tiger.

George H. Johnson II and Dr. Adena Williams Loston pose with second-place winners Chad Hunter, Sonny Knox, Brian McCoy, and AG Yowell.

St. Philip's College (SPC) raised more than \$172,000 for student scholarships during its 17th Annual Scholarship Golf Tournament, held March 6 at Olympia Hills Golf & Event Center.

The annual event, the college's largest scholarship fundraiser, drew 154 golfers, including three student teams, as well as community leaders, sponsors and supporters. Proceeds support tuition and textbook costs for students pursuing more than 100 degrees and certificates across the college.

"The purpose of this tournament is simple but powerful: to raise scholarship dollars for our students," said St. Philip's College President Dr. Adena Williams Loston. Approximately 87% of SPC students rely on financial aid or scholarships to attend. Since its inception in 2009, the tournament has generated more than \$2 million in scholarship funding, helping reduce financial barriers and support student success. This year's fundraising goal was \$130,000, a benchmark the event exceeded.

The tournament also highlighted student achievement, with 10 student golfers participating after receiving training and preparation. Students had little to no prior golf experience before joining the program.

During the tournament, golfers participated in on-course activities, including a hole-in-one contest with a vehicle prize sponsored by Jordan Ford. No winner was recorded for the contest. Flintco, LLC served as the tournament's title sponsor, with Stantec serving as the breakfast sponsor. St. Philip's College is grateful to these organizations and the many corporate and individual supporters whose generosity helped make the event a success.

The Annual Scholarship Golf Tournament is held each year on the first Friday in March as part of the college's anniversary celebration. This year marked the college's 128th anniversary. The next tournament is scheduled for March 5, 2027, at Olympia Hills Golf & Event Center.

Dr. Adena Williams Loston stands with third-place winners Anthony Bledsoe and Morris Stribling, along with Phil the Tiger.

Dr. Adena Williams Loston stands with the last-place team of Patricia De Haro, Tim Kenney, Fallon Gordon, and Shane Blanchard, along with Phil the Tiger.

SPC Announces 2026 NISOD Excellence Award Recipients

Shown here from left: Dr. Tomeka Cross Wilson, Academic Program Director, Title III Grants Management Office; Patricia Lamson, Assistant Professor; Beatrice Avila, Assistant Professor; Benjamin Ochoa, Associate Professor; Mary Bozeman, Certified Advisor; Paul Lede, Coordinator – Student Success; Candace Barnett, Academic Program Coordinator; David Kisel, Associate Professor; Mary Gentry, Associate Professor; Dr. Joseph Kulhanek, Chair of the Allied Construction Trades; Steven Zuniga, Data Analyst – Student Success, and Marsha Hall, Dean of Performance Excellence. Not picture is Allen Hamilton, Professor.

St. Philip's College is proud to announce its 2026 Excellence Award recipients from the National Institute for Staff and Organizational Development (NISOD).

The NISOD Excellence Awards honor individuals who demonstrate exceptional work and dedication on their college campuses. Since 1991, more than 30,000 educators and staff members have received this prestigious recognition.

Each year, NISOD member colleges submit individuals who have demonstrated outstanding commitment and contribution to their students and colleagues. All individuals whose names are submitted are recognized as NISOD Excellence Award recipients. Each recipient is awarded a unique silver medallion engraved with The University of Texas and NISOD insignias.

SPC President Named Among Alamo Colleges District's 80 Champions of Opportunity

St. Philip's College President Dr. Adena Williams Loston has been recognized as one of the Alamo Colleges District's 80 Champions of Opportunity as part of its 80th anniversary celebration. Dr. Loston has distinguished herself as the district's top donor for eleven consecutive years, reflecting a commitment to leading through example.

The recognition highlights individuals who have advanced access to education, social mobility, workforce development, and community empowerment. The tradition of giving at St. Philip's College dates back to its founding President, Saint Artemisia Bowden, who sustained the institution in its early years through extensive fundraising efforts.

"I grew up in a caring family, a giving family," Dr. Loston said. "I am richly blessed in so many ways, including financially. Because of that, I don't dare not give back. I don't dare not share what I've been blessed with." Dr. Loston was recognized for embodying several Champion of Opportunity attributes, including serving as an Ambassador of Opportunity, representing the district's mission and values; a Storyteller and Advocate, amplifying the impact of

educational access; a Community Connector, strengthening relationships between the district and the community; and an Active Participant, providing mentorship and leadership through service.

The Alamo Colleges District is recognizing 80 Champions of Opportunity, which is a group of leaders, advocates, and community partners whose contributions have expanded opportunities for students and communities across the region. Dr. Loston is the only currently employed Alamo College employee to be recognized among the 80 Champions.

SPC Hosts 31st Annual Rib Cook-Off

Shown from left: Vice President for College Services George H. Johnson II, Chef Instructor John Munoz, Rib Cook-Off winners Fidencio Duran, Eric Stennett, Alejandra Garza, and Alexandra "Sasha" Wilhelm, and St. Philip's College President Dr. Adena Williams Loston.

St. Philip's College (SPC) celebrated culture and community during its 31st Annual CultureFest and Rib Cook-Off on April 23, 2026, welcoming thousands of visitors to its Martin Luther King Campus for the East Side's largest free official Fiesta San Antonio event.

The daylong celebration featured live music, cultural performances, food and merchandise vendors, a car show, family activities, and the college's signature rib cook-off competition. Proceeds from the event supported student scholarships, continuing a tradition that combines Fiesta fun with educational opportunity.

The event opening ceremony featured the Sam Houston High School JROTC Color Guard, the presentation of colors, a performance of the national anthem by St. Philip's College Early College High School student Taleah Faucett, and an Indigenous blessing by the Mission Indians of San Antonio.

The event also showcased the work of St. Philip's College Welding Technology students through a raffle featuring nine custom-made barbecue grills designed and fabricated by the program at the college's Southwest Campus. The raffle generated over \$7,700 in raffle funds that will go directly back into the academic program.

Entertainment throughout the day included performances by Mariachi Festival de Oscar Garza, the Funk-O-Matic, and the Palacio Brothers.

The event concluded with the announcement of competition winners. In the rib cook-off competition, The Smoke King BBQ earned first place, followed by Charcoal Confessions in second and Smoke Therapy in third.

The dessert competition was won by the SPC Veterans Affairs Office, with Mechis Desserts taking second place and Audra Marie Nabers placing third.

Tiger Family Roar and Pour captured first place in the non-alcoholic beverage competition, followed by Burbank High School Culinary and Sarah Ramirez in third. The Car show included 40 vehicles in total. The winners included Adrian Gonzalez in the Truck Category, Lupe and Linda Ramirez in the Hot Rod Category, Al Cervantes in the Modern Category, and Ignacio Borroel in the Classic Category. CultureFest once again demonstrated the college's dedication to education, cultural enrichment and community engagement, while generating scholarship support for future students.

Pictured here are members of the Burbank High School Culinary Seniors team, winners of second place in the non-alcoholic beverage category, with St. Philip's College President Dr. Adena Williams Loston and Phil the Tiger, the college mascot.

Shown from left: Phil the Tiger, the college mascot; Veronica Griego, accepting on behalf of first-place winner for the dessert competition, Juliana Garza; and St. Philip's College President Dr. Adena Williams Loston.

Shown from left: Car Show truck category winners Eric Guillen, Adrian Gonzalez, and Daniel Meda.
