ADDENDUM VI (Last Addendum)

PURCHASE OF ARCHITECTURAL/ENGINEERING/MASTERRENOVATION PLANNING SERVICES RFQ 2026-0077

- I. **QUESTION: (Submitted on 11/3/2025)** Item 22.b of the draft agreement states that “Delegation of Design is Prohibited.” Many proprietary systems such as fire protection, elevators, certain mechanical and electrical systems, and other specialty components are required by code or industry standard to be designed or engineered by the system manufacturer or a specialty engineer under the contractor. Could the District please clarify whether appropriate design delegation for proprietary or specialty systems will be permitted when consistent with code and industry standards?

ANSWER: Revise item 22.b to, “Delegation of Design is prohibited, except for specialty components that are required by code or industry standard to be designed by system manufacturer, installer, or specialty engineer under contract and expressly approved by Alamo Colleges.”

*** Please acknowledge receipt of this Addendum VI with your proposal.***
