Malcolm Baldrige  
National Quality Award

2018 Award Recipient

Topics we will cover in this webinar include:

Creating assessments and activities using Canvas Assignments

Selecting settings to meet your course design needs

Grading and weighting assignments

## Canvas Assignment Tool

The Canvas Assignment Tool allows you to create assessments and assignments that are synched with your Gradebook.

### **Key features:**

- Easily Organize and Grade Online Submissions
- Create Due Dates and Restrictions
- Promote Collaborative Learning with Peer-Review and Group Assignment Options
- Add Rubrics
- Weight Grades

## Canvas Assignment Tool

**\*IMPORTANT POINT** on Terminology

### **Assignment Tool** vs **Assignments Page**

- **Assignment Tool** is for creating submitted assignments
- **Assignments Page** is for viewing and weighting all “Assignments” that appear in the Gradebook—this includes Quizzes, Discussions, and Assignments

## Selecting Settings

- **Be Intentional** – Select settings that further your instructional goals
- Consider whether this is a **formative** or **summative** assessment
- Decide if this is a **collaborative learning activity** or **individual assignment**
- Assign a **value** that matches the assignment's importance
- Provide the **time**, **instructions**, and **resources** necessary for your students to be successful
- Design to prevent plagiarism and, when applicable, use **Turnitin**.

### Grading and Weighting Assignments

Canvas Assignments are already synched to your Gradebook, making grading **so** much easier!

- The **Assignments Page** allows you to create Assignment Groups to weight assignments.
- You can create **Rubrics** to ensure consistency in your grading and communicate expectations to students.
- **SpeedGrader** provides an easy-to-use interface for organizing and grading your student's work.

In this webinar, we discussed:

Creating assessments and activities using Canvas Assignments

Selecting settings to meet your course design needs

Grading and weighting assignments
