1.0 Organizational Description (Who We Are)

1.1 Alamo Community College District (Alamo Colleges District or ACD) is a nationally recognized organization and the recipient of the Malcom Baldrige National Quality Award, the nation’s highest honor for performance excellence. The Aspen Institute named San Antonio College the winner of the 2021 Aspen Prize for Community College Excellence and received $600,000. Four of the five colleges in Alamo Colleges District are named in the top 150 the nation’s best community colleges, and Palo College is among the top two in the country. The Alamo Colleges District includes Palo Alto College, Northwest Vista College, San Antonio College, St. Philip’s College, and Northeast Lakeview College, along with a number of off-campus locations throughout the San Antonio metropolitan area, serving an eight-county region, with a total enrollment of over 90,000 students.

From our origin as a community college district in 1945 through decades of change and expansion, we have worked to make higher education accessible and affordable. Today, our five colleges fulfill this mission with a vast array of certificates, courses, 2-year degrees and four-year degrees. Our credits transfer to four-year universities for those pursuing advanced degrees, and our workforce development and continuing education programs help individuals build new careers and meet the needs of businesses. Our moonshot is to partner to end poverty through education and training – whether that’s a certificate, an associate degree, or workforce-oriented baccalaureate degrees.

The Alamo Colleges District is one of the largest community college systems in the United States and the fourth largest in Texas. Bexar County is the taxing district for ACD. We, however, serve a much larger region; our service area includes all of Bandera, Bexar, Comal, Kendall, Kerr and Wilson Counties, and most of Atascosa and Guadalupe Counties. San Antonio is the seventh-largest city in the nation with an estimated 1.5 million people, of which 60% are Hispanic. Of all students enrolled in post-secondary education in the city, approximately 39% are enrolled in one of our Colleges. A $450 million capital improvement program was approved by the voters of Bexar County in 2017 to renovate aging facilities, build new facilities, buy land for future expansion, and expand our technology infrastructure.

ACD serves the Bexar County community and its service area through its programs and services that help students succeed in acquiring the knowledge and skills needed in today's world. Students are taught by highly qualified faculty with Master's and Doctorate degrees who are dedicated to creating a learning-centered environment. Student services include advising, computer labs, tutoring, financial aid services, services for the disabled, advocacy centers, developmental instruction, veteran’s services, and job placement assistance.

ACD, a Hispanic-Serving System which includes the nation’s only college that is both a Historically Black College and a Hispanic-Serving Institution, is the nation’s third largest producer of Hispanic nurses. ACD is also one of Texas’ largest providers of online post-secondary education. A diverse international program brings Central American and other teachers to San Antonio for advanced education while affording students and faculty the opportunity to gain the skills to work in a global economy.
1.2 The Five Colleges of the Alamo Colleges District

The five colleges that comprise ACD include: St. Philip's College (SPC), established in 1898; San Antonio College (SAC), established in 1925; Palo Alto College (PAC), established in 1985; Northwest Vista College (NVC), established in 1995; and Northeast Lakeview College (NLC), established in 2007. All of the colleges are within San Antonio city limits except Northeast Lakeview College, located in Universal City, just to the northeast of San Antonio. Each College operates with significant autonomy in accordance with ACD’s unique Participatory Leadership model of collaborative leadership between the Colleges and DSO (District Support Operations). Based on that autonomy, each College is accredited independently by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees and certificates. Beginning Fall 2021 the Alamo Colleges has been approved to offer the Bachelor of Science in Nursing degree.

The five college campuses encompass more than 5.4 million square feet of space on 779 acres across Bexar County. Each has typical college campus facilities such as academic and classroom buildings, administrative buildings, library facilities, gymnasiums, cafeterias, science classrooms and labs, and computer labs. In addition, there are a number of specialty facilities such as performing arts centers, natatoriums, allied health, emergency medical training areas, and aviation classrooms adjacent to the runway at the historic Stinson Field.

1.3 District Support Operations (DSO)

District Support Operations (DSO), located in the Alamo Colleges Center of Excellence for Student Success (ACCESS) building close to the urban contemporary Pearl District, provides administrative services and support to the five colleges under Collaborative Agreements. The ACCESS facility encompasses 160,950 square feet of space which houses the executive offices for the Chancellor and Vice Chancellors, as well as Human Resources, Legal Services, Ethics, Communications, Internal Audit, Strategic Planning and Performance Excellence, Institutional Research and Effectiveness, Information Technology, Finance and Fiscal Services, Facilities, Student Financial Aid, Center for Student Information, Police, workforce programs, and other service units. The ACCESS building has a large conference center for cross-college meetings, program collaboration, and community use. Some remaining DSO personnel are co-located with the colleges on their campuses, enabling them to be close to the students they support.

1.4 Off-Campus Sites

The Alamo Colleges District also maintains several off-campus sites to better serve the residents of Bexar County and those located within the surrounding service area.

1.6 Workforce Profile of Alamo Colleges District

Our workforce includes 5,600 faculty, administrators, staff, and work study (student employees). The District’s diverse workforce continues to be representative of both our student population and the demographics of Bexar County. Teaching faculty are required to meet the certification requirements associated with accreditation set by the SACSCOC. Some positions in the administrative segment require professional or doctoral degrees, while others require bachelor’s or master’s degrees, and positions in the staff segment require at least a high school level of education. While no bargaining units
exist, the Faculty Senate and Staff Senate at each of the Colleges are engaged in Participatory Leadership for local initiatives. These groups are also part of a larger, Unified ACD Faculty Senate and Staff Senate, which addresses alignment issues as needed in the District. This is another example of our Participatory Leadership approach. Special health and safety related requirements exist in the following areas: recognized hazardous work environments such as welding, electrical, chemical, and ergonomics; compliance with Texas Commission on Law Enforcement Standards for police officers; and driving safety for vehicle operators.

1.7 Organizational Structure/Organizational Governance of ACD

The Chancellor is the Chief Executive Officer (CEO) and reports to a 9-member Board of Trustees (Board) and one non-voting Student Trustee; the members represent nine different districts in the San Antonio area and are elected by community members to serve for a term of six years. The Student Trustee is selected by the Board from the student associations of the five Colleges and serves a one-year term. The Board acts as a Committee of the Whole and is comprised of eight committees: Student Success; Building, Grounds, and Sites Selection; Policy and Long-Range Planning; Audit, Budget and Finance; Workforce; Legislative; Community Involvement; and Legal Affairs. Committees provide oversight of operations in their areas of responsibility and issue guidance and direction in the form of Board Policies. By state statute, the Board is the governing body that sets policy, appoints the Chancellor, levies property taxes, and approves the budget. The Board is the final authority on all matters of governance for the organization. College Presidents report to the Chancellor, serve as CEOs of their college; and sit on the Strategic Leadership Team (SLT), the senior decision-making body within the organization.
