## Jasmine Cordero

**DENTAL ASSISTING CERTIFICATE LEVEL I**

*“Though we tremble before uncertain futures,  
may we meet illness, death and adversity with  
strength, may we dance in the face of our fears.”*

– Gloria Anzaldua

Jasmine Nicole Cordero was born and raised in San Antonio. At 25, she decided to go back to school to pursue her goal of becoming a dental hygienist. Jasmine was a full-time student and worked outside of class and every weekend. She enjoyed breaks and holidays as it was the only time she could spend with her family. Although she could not spend a lot of time with her family due to studies and work, they were proud of her for pursuing her passion.

Upon graduation from the dental assisting program at San Antonio College, Jasmine plans to work as a registered dental assistant while continuing her education to become a dental hygienist. Her ultimate goal is to graduate from hygiene school and fulfill her dream of becoming a registered dental hygienist. In her free time Jasmine likes to read, play video games with her friends, and spend time spoiling her dogs with scratches.
