Feb-19

This document shows selected Key Performance Indicators (KPI) and how the Alamo Colleges measure up to other very large community colleges (VLCC) of Texas. The Alamo Colleges use the VLCC as peer institutions for benchmarking purposes. Where available, state and national averages are included for comparison.

Executive Summary performance metrics are color-coded as follows:

-  Green denotes performance equal to or above the Texas VLCC average
-  Yellow denotes performance below the Texas VLCC average
-  Grey denotes that a state benchmark for the measure is unavailable
Note: For CCSSE data, the Texas state average is the benchmark

Data Trend performance metrics are color-coded as follows:

-  Denotes an increase in performance of at least 0.5% from previous period
-  Denotes a decrease in performance of at least 0.5% from the previous period
-  Denotes a minor change (within 0.5%) in performance from previous period

This process helps the Alamo Colleges determine their own annual performance targets. College performance results and targets are systematically compared for the production of performance scorecards. This contributes to improve performance and advance performance management, transparency, and accountability at the Alamo Colleges.
