San Antonio, TX 78249

St. Philip's College (SPC), in San Antonio, Texas, has launched a new Cyber Security: Cyber First Responder Program with funding support from the National Science Foundation (1241739). The project's goal is to educate and prepare cyber first responders to increase the number of professionals in the information assurance and cyber security workforce who are highly trained to prevent, detect, respond to, and recover from cyber security incidents impacting one or more organizations.

The NSF (1241739) – Cyber Security: Cyber First Responders Program will be conducting hands on Digital Forensic Training for all Middle, High School teachers and College Faculty. Come and join St. Philip's College for FREE hands on Digital Forensics training. Participants are encouraged to RSVP as soon as possible.

Funded by: National Science Foundation under the Federal Cyber Service: Scholarship for Service Grant Program.
