Want to improve or enhance your Cyber Security Skills? Well then be a part of our FREE professional training!

Cost has been covered by NSF Grant

St. Philip’s College (SPC), in San Antonio, Texas, has launched a new Cyber Security: Cyber First Responder Program with funding support from the National Science Foundation (1241739). The project’s goal is to educate and prepare cyber first responders to increase the number of professionals in the information assurance and cyber security workforce who are highly trained to prevent, detect, respond to, and recover from cyber security incidents impacting one or more organizations.

Business Information Solutions Department
