

ST. PHILIP'S COLLEGE PRESENTS THE CYBER SECURITY AND COMPUTER SCIENCE STEM SYMPOSIUM

NOVEMBER 20, 2013 | 10:00 AM - 1:45 PM

This symposium is a single element in establishing a robust, sustainable framework for communicating the needs and interests of San Antonio area. The focus of the symposium is integrating workforce and educational pipelines through partnering of resources.

KEYNOTE SPEAKER

Jon Ford, MCJ, FBI Supervisory Special Agent, San Antonio Division Cyber and Computer Analysis Response Teams

Covering nearly one-third of Texas, Mr. Ford leads the FBI's first and largest National Security focused Cyber Task Force in the nation comprised of DoD and law enforcement agencies. During the symposium he will discuss the impact of high-tech crimes in our nation's private technical sector and how cyber intrusions affect the United States.

ACADEMIC SPEAKER

Gregory White, Ph. D., Director, Center for Infrastructure Assurance and Security (CIAS)

WORKFORCE SPEAKER

Patsy Boozer, M. S., Chief Information Security Officer, City of San Antonio
