

NOTICE TO PROGRAM APPLICANTS

The Medical Laboratory Technician program makes every effort to provide an understandable application process by insuring each applicant has the necessary information for application completion. It is the student's responsibility to review the application requirements and selection criteria for the Medical Laboratory Technician program to which they are applying. Application requirements and selection criteria are subject to change. Some programs may have additional requirements.

Please visit our website for detailed information about our program's application and selection process.

All applicants have equal opportunity to contact the Program Director prior to submitting their application. Each program reserves the right to consider an applicant ineligible for program admission if he/she neglects any part of the stated requirements for application or selection. Fulfilling all application criteria does not guarantee acceptance into a program as program size is limited. Acceptance to the Medical Laboratory Technician program is subject to completion of a background check and drug screen.

Health Sciences front office personnel are able to assist you with general application questions you may have.

However, it remains the responsibility of the applicant to follow all written instructions for application submission and selection criteria.

Alamo Colleges, St. Philip's College, the Health Science Department and the Medical Laboratory Technician program are not responsible for any applicant misinterpretation of the application or selection process. As evidence that you have read and understand this notice, you will be asked to confirm with your signature on the Medical Laboratory Technician program Application.
