Quality Enhancement Plan - Ethical Decision-Making

St. Philip’s College is in the process of reaffirmation by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). Part of this process is the QEP (Quality Enhancement Plan) to promote student success. Our QEP topic is Ethical Decision-Making.

**QEP Focus:** Ethical decision-making is the ability to connect values and choices to actions and consequences.

**QEP Goal:** Students engage in specific measurable academic activities to enhance their ethical-decision-making skills.

**Ethical Decision Making Process**
- Stop and think to determine the facts
- Identify the options
- Consider consequences for yourself and others
- Make an ethical choice and take appropriate action

AlamoCARES

For more information, contact George H. Johnson, III, Interim Vice President of Student Success @ 210-486-2252.

St. Philip’s College is committed to providing a supportive learning environment and to fostering, safe, healthy relationships among our students. In this effort, Alamo Colleges initiated AlamoCARES, a prevention, education and support program regarding dating violence, domestic violence, sexual assault and stalking. It is our sincere hope that AlamoCARES will empower you to make well-informed decisions about life issues that affect your college years and beyond.

Within the AlamoCARES site, you will find information on rights granted by Title IX and resources to help educate and assist you when dealing with harassment and sexual violence. Coming soon are events, training and opportunities to bring awareness when dealing with difficult issues and creating discussion opportunities with students. Visit us at http://alamo.edu/SPC/alamocares/ for more information.

The Alamo Colleges encourage individuals to bring forward information/complaints about sexual harassment and sexual violence. Retaliation against any individual who reports or participates in the investigation of alleged violations is strictly forbidden and will be enforced by the College administration.

If you believe you have experienced Sexual Misconduct you may consider the following options:

- Contact Campus Police at (210) 485-0099 (non-emergency) or (210) 485-0911 (emergency)
- Seek medical attention at a hospital or with a physician
- Report the incident at www.alamo.edu/TitleIXCoordinator/
- Contact SPC Counseling Services at (210) 486-2333 (Confidential)
- Contact parents, relatives or close friends for support

Are you Disability Aware?

What are Diabetes and Prediabetes? Diabetes is a disease in which blood glucose levels are above normal. Most of the food we eat is turned into glucose, or sugar, for our bodies to use for energy. The pancreas, an organ that lies near the stomach, makes a hormone called insulin to help glucose get into the cells of our bodies. When you have diabetes, your body either doesn’t make enough insulin or can't use its own insulin as well as it should. This causes sugar to build up in your blood.

A person with prediabetes has a blood sugar level higher than normal, but not high enough yet for a diagnosis of diabetes. He or she is at higher risk for developing type 2 diabetes and other serious health problems, including heart disease and stroke.

What You Can Do
Research shows that modest weight loss and regular physical activity can help prevent or delay type 2 diabetes by up to 58% in people with prediabetes. Modest weight loss means 5% to 7% of body weight, which is 10 to 14 pounds for a 200-pound person. Getting at least 150 minutes each week of physical activity, such as brisk walking, also is important.

The lifestyle change program offered through the National Diabetes Prevention Program, led by CDC, can help participants adopt the healthy habits needed to prevent type 2 diabetes. You can find a program in your community. Will diabetes be part of your story? [http://www.cdc.gov/features/livingwithdiabetes/]

Alcohol and Drug Abuse Prevention Program - 16 Nuggets
Counseling Services at St. Philip’s College wants students to know about our Alcohol and Drug Abuse Prevention Program. We also want students to know they are not alone, treatment works, there is help, and hope for individuals struggling with alcohol or drug use or abuse. Counselors work to help remove barriers to learning and safety for all. Come by to see a Counselor or call (210) 486-2333 for an appointment.

Here are important words of truth, or nuggets of information:

1. What’s the problem with drinking? Alcohol affects feelings - sometimes as soon as the first drink. A person can suddenly become angry, depressed or happy. Alcohol can also lower judgment and self-control.
2. Treatment has three parts: The person must stop using the drug and receive treatment for withdrawal symptoms if necessary. The person must learn how the drug worked in his or her life. The person must learn how to avoid using the drug again.
3. Good reasons not to drink or use drugs: You avoid embarrassment. (You won’t throw up, say or do something you regret or get arrested.) It’s safer. You lower your risk of injury and death (from car crashes, fights, alcohol poisoning and overdose). You don’t break the law. You do better at school or work.
4. The person who is drinking is not the only person who is at risk.
5. Get counseling. Treatment works.
6. Suicide: Alcohol, used alone or with other illegal drugs, can increase a person’s risk of suicide. Drinking can make bad feelings last longer or seem worse. People who use alcohol to deal with depression are less likely to get help.
7. Murder: Guns, angry feelings and alcohol are a dangerous combination. Two out of three murder victims are killed with guns. Most murders happen when two people get into an argument that turns into a fight.
8. Alcohol and angry feelings can lead to physical abuse among families, friends and dating partners. When guns or other weapons are involved, the violence can lead to serious injury or death.
9. Eight out of ten rapists know the person they rape. Often the rapist, the victim, or both have been drinking.
10. Someone who is drinking and feels angry might be more likely to argue, fight or be violent in other ways.
11. Call 911 if you think you or someone you know has been given a date rape drug. Stay with the person until help arrives.
12. Using drugs can make it hard to learn and remember things. School or work may seem harder. You can even get more colds and flus.
13. Refusing a drink is easier if you plan what you will say ahead of time and practice.
14. Taking too much of a prescription drug or using it with other drugs or alcohol can cause the drug to interfere with important body functions such as breathing, heart rate and blood pressure.
15. Binge Drinking: Drinking a lot in a short amount of time, often with the intention of getting drunk.
16. The only thing that can get alcohol out of the system is time – about one hour for each drink. Black coffee, a shower or fresh air won’t sober someone up.
