Motivating & Engaging with STEM Activities
MATH/SCIENCE TEACHER
RECOMMENDATION

Applicants Name: __________________________________________

Dear Teacher,

This student is seeking acceptance to the Motivating & Engaging with STEM Activities (MESA) hosted by the Centers of Excellence for Mathematics at St. Philip’s College from June 10th – July 18th, 2019. The Center is looking for future scientists, technologists, engineers and mathematicians. Please provide some sincere insight into this applicant’s behavior, respect, discipline, personality and any other information you believe will be helpful in aiding to select this summer’s MESA participants.

Please email completed letter to: alondon3@alamo.edu

Your input:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Identify SPECIFIC STRENGTHS that will contribute to the MESA summer program as a whole.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Identify SPECIFIC CHALLENGES that you believe the MESA summer program could develop within the student.
