Ethical Decision-Making is the ability to connect values and choices to actions and consequences.

Process of Ethical Decision-Making:

1. Stop and think to determine the facts. Avoid an immediate emotional reaction. Consider the viewpoint of others.

2. Identify options. What are my values? What choices do I have?

3. Consider consequences for yourself and others. Evaluate choices and possible short and long-term effects.

4. Make an ethical choice and take appropriate action. Accept responsibility.

First Year Experience

SERVICES OFFERED
First Year Experience (FYE) strives to support students through coordinating, enhancing, and supporting a broad array of programs, services, experiences, and educational activities. Our efforts begin with Tiger Nation Family Day, a student’s official induction into the Tiger Nation Family and activities during the first week of classes, creating opportunities for new students to meet and interact with other students, faculty, and staff and conclude with an End of First Year Banquet.

A student’s first year of college is a time to meet new people, discover more about who they are and who they are becoming. The FYE team is here to support students in their academic and personal growth.
